

Is AI already operating inside your organization without leadership oversight?

What we're seeing repeatedly:

- AI tools used informally by staff
- No clear rules on data usage
- Inconsistent review of AI outputs
- AI risks missing from risk registers
- Boards unaware of scale or exposure

AI adoption is accelerating faster than governance

This doesn't require panic.
It requires visibility, structure and leadership.

Free Executive Webinar (30 mins) AI Readiness & Governance: The Risks You Can't See Yet

What you'll get:

- The 5 AI risks most organisations are missing
- Why AI can increase risk and inefficiency
- A practical framework Boards can use immediately
- How leading organisations are responding
